ALLIANCE NETWORK SOLUTIONS

CAPABILITY STATEMENT

Network Infrastructure & Managed IT for Education and Government

CORE COMPETENCIES

- Network infrastructure design, installation, and ongoing management
- E-Rate Category 1 & 2 project scoping and implementation (K-12)
- VoIP deployment and support
- Cisco-certified network engineering
- Managed IT support and helpdesk services
- Wireless access point deployment and coverage design

DIFFERENTIATORS

- Direct working experience with E-Rate Form 470/471 timelines — technical scoping aligned to what districts can actually file and get funded
- Family-owned small business, operating since 2006
- Full-service model: design through long-term support, not just installation
- Responsive, right-sized team — no subcontractor layers between client and engineer

PAST PERFORMANCE

Eastern Oklahoma District Library System

Period of Performance: 2023–2026 (ongoing) • Scope: 6 sites

Full network refresh and modernization across all six locations. Scope included Category 2 infrastructure recabling, a rebuilt server environment sized for future growth, and voice-system installation to eliminate dependency on legacy copper infrastructure ahead of its planned discontinuation.

Erick Public Schools

Period of Performance: 2012–2026 (ongoing) • Enrollment: ~240 students

Long-term network, server, and voice infrastructure partner. Delivered Category 2 network recabling and modernization, wireless expansion to support growing student and staff device use, and a full voice-system upgrade to remove copper-line dependency.

Sterling Public Schools

Period of Performance: 2012–2026 (ongoing) • Enrollment: ~180 students

Multi-year infrastructure modernization covering Category 2 recabling, server system upgrades, wireless network expansion, and voice-system replacement — bringing network, server, and voice systems up to current district needs.

PRIMARY MARKETS

- K-12 public school districts (Oklahoma & Ohio)
- Municipal and county government agencies
- State agencies and federal offices
- Small-to-mid-sized businesses
